

Hello my name is Mrs Sambor

I am the Learning Mentor School, School Governor Attendance Officer and a fully qualified Early Years Practitioner working in the early years. I have over 25 years extensive experience working across the school with all age groups from Nursery to Year 6.

At present I am in the School Nursery both AM and PM where I plan and provide fun and stimulating activities both inside and out linked to children's interests to support them in their learning and development. Also to support them in their readiness for school Reception Class.

I run a daily Breakfast club at the school which provides a vital service for working parents in our community. In my role as Learning Mentor I work with groups and individual children supporting them with personalised learning plans and also run a school council which offers children a voice in their school community. I also engage with families in the community

Please feel free to visit St Leos and Southmead School Nursery. We would be delighted to see you.

For visits please call the school on 0151 477 8410
